REC comes up with teaching aid for autistic kids

Chennai, Feb.16: Rajalakshmi Engineering College (REC), Thandalam, has developed a learning kit for the autistic children. As a funded project from the department of science and technology (DST), the faculty members of Information Technology (IT) and Computer Science Engineering (CSE) have come up with the E-kit, putting their innovative ideas through multi-media technology with eye-catching animations.

This kit designed with visual aids at an affordable cost is meant for enabling the autistic children to learn and retain the concepts. The user friendly kit developed in English as well as in Tamil will be very useful in rural areas too.

Dr Thangam Meganathan, chairperson, Rajalakshmi Institutions released the kit on Wednesday and Dr Konga Gopi Krishna, scientist -D, TIDE Programme, SEED Division, DST received the kit.
