**EVENT REPORT
PROBLEM SOLVING SKILLSACCENTURE
SPECIFIC TRAINING – 15 Sep - 26 Sep 2021**

This training was conducted for all the eligible students in final years appearing for the placements to crack interviews with in both product and IT based companies.

There were **844 eligible** students participated for this event. Both exclusive practical and theory sessions were conducted in the training. Students from all department participated in this training and were benefited.

The companies are using rigorous selection process to shortlist suitable candidates from the large pool of applicants. With more engineers passing out of engineering colleges across India every year, competition for these jobs is also increasing. In addition, every student hopes to get the best possible job for his/her capabilities and knowledge. This is possible only if the student performs well in the selection process adopted by the company he/she aspire to join. This specific training helps them to ensure a good performance in these selection processes and this get a good job

This training helped the students to understand the modern technical workforce. Below are the listed feedbacks from the students on the technical training.

- Program helped the students to retrieve the knowledge on the technical aspect
- Enhanced the confident level
- Helped students to build a strong foundation
- Learned new tricks on how to crack the technical round

EVENT REPORT-NEW TRENDS IN CAREER DEVELOPMENT

DATE: 17.02.2022 and 18.02.2022

Jayaprakash Gandhi is the trendsetter in guiding the Current generation students and is highly regarded for his futuristic revelations. It urged the students to passionately equip themselves for their chosen profession Mr. Gandhi's sparkling presence was accentuated by his in-depth knowledge of the industry and preparing the students to meet its requirements.

An orientation was conducted on **17.02.2022 and 18.02.2022** for the first year students in three different slots and three hours per session and **1545** students participated in this orientation. He conducted a well-designed and extensive program to assist the individuals in making and implementing informed educational and occupational choices. The interactive session for the students provide them guidance and tips on the choosing the right career path depending on their interest.

He also highlighted the need to acquire knowledge, information, skills and experience necessary to identify career options and narrow them down to make one career decisions which will help them in their social, financial and emotional well being

Event outcome:

This session helped the students to gain confidence in themselves and also think clearly on which career they would want to pursue. Students were also taught about the strategies to have multiple options and multiple back up plans. They realized that spending time on planning for the right career is to utmost importance because choosing the right career results in emotional. social and financial happiness.

**EVENT REPORT- Interpersonal Skills Enhancement session
Personality Development Program**

The course aims to cause a basic awareness about the significance of soft skills in professional and inter-personal communications and facilitate an all-round development of personality. Hard or technical skills help securing a basic position in one's life and career.

This course is especially helpful for students who are striving to learn more about who they are, which direction their life should take, and understanding others around them. A total of **1676** students from all departments were trained in this program by the Kings Learning Institute. This is 18 hours' program and conducted in two phases for all the department students with 3 hours per day and exceeded for 6 days in total for all the students.

Institution: Kings learning Institute

The trainer from Kings Learning works very closely with the educational institutions to implement the interpersonal skills for the student's. Their teaching methods are based on the Kings College - UK established over 70 years. These methods include assessment learning skills and evaluation methods. This combination with their own personalisation which includes practical training sessions enabled us to help the students realise their potential

Course Objectives:

The major course objectives are:

Students need development in specific areas in order to achieve performance objectives, career goals and to improve an aspect of their performance. The main objective is to develop a specific skill or behaviour, or increasing your knowledge in a particular area.
