## **MEET REPORT:**

### **INTRODUCTORY MEET**

#### **Introduction to Atrium & Debating Union**

The introductory meet of the year 2021-22 was held on 26th of September 2021 at 4:00 pm. Around 96 students from the second year have attended the online meet where they were introduced to the club and new core members of Atrium, DU and Ed Board. The event commenced with both the clubs introducing themselves along with their office bearers.

After the presentation, the participants were briefed about the event Block & Tackle. They were then split across 5 breakout rooms, where they participated in Block & Tackle hosted by 2 core members from either club. This activity not only showcased the creative side of the participant but also showcased their debating and communication skills.

After every participant has finished their speeches, they were given feedback by the core members and then sent back to the main meet where the Ex- President of DU addressed the newest members of the club followed by the Ex- Vice President of Atrium sharing how much these two clubs were a part of her college life.

The event ended with a feedback session where the participants were asked about their expectations from the clubs. The feedback and requests were noted by the core members. This event was a huge success and each participant has shown that they have a lot of hunger and desire to learn, improve and contribute to Atrium and Debating Union.

## COMMUNICATION WITH PARTICIPANTS:

HERTZ! Inbox x

 **Leo Club REC** <leoclub@rajalakshmi.edu.in> Sep 17, 2021, 10:14 AM ☆ ↶ ⋮  
to Staff, me ▾

Greetings from LEO Club-Rec,

Engineers day is celebrated to appreciate Sir Mokshagundam Visvesvaraya, the greatest engineer the world has ever had. It is also a tribute to all the hardworking engineers around the world. Join us on the 19th of September 2021, as we celebrate all the brilliant engineer minds through our event- HERTZ!

**Event 1: Connect-o-mania**

A collaborative event with Atrium club- REC!  
Participants will be given a topic and made to speak about it for about a minute, and then the next participant will have to continue from where the previous stopped, like a spin-a-yarn event.

Time: 11:30am  
Date: 19/09/2021

**Event 2: The Alternatives**

Participants will be given an object or idea for which they'll have to find an alternative solution. It can be a pre-existing solution as well.

The official mail that was sent out to the participants informing them about the event.

## **MEET REPORT:**

### **ATRIUM**

### **ATRIUM X LEO** **CONNECT-O-MANIA**

The Collect-O-Mania event was a collaboration between Atrium REC and Leo Club REC held on 19.09.2021 at 11am. This event was attended by more than 22 participants from various colleges in India. The participants were given a sentence and they had to frame a story and when their time ran out, the second participant picked up from where the former left it and so on. The participants were given an equity briefing followed by the explanation and the proceedings of the event.

After the introduction was over, the participants were sent to 4 different breakout rooms where they were judged by an Atrium Core member. The chair in every room selected 1 or 2 participants from each room and sent them to the grand finale which was judged by the ex Debating Union's President. The chair asked the atrium core for a demonstration of the event for both the participants and the spectators to get a better understanding of the event. There were a total of 8 finalists and they were allowed to talk for a maximum of 3 minutes each. After everyone had finished their speeches, the atrium core and the chair decided on the winner and announced that Madhu Harshini of REC was the winner followed by Aaqil Sheriff of REC and Shayan of MCC as the first and the second runner-up respectively and were provided with certificates.

## MEET REPORT:

### ATRIUM

The fourth meet organised by Atrium was held on Saturday, 9th January, 2022. This was conducted online where about 50 students attended the meet. This meet had 3 events planned namely, This or that, Emotional Quadrant, JAM 2.O. The first event to take place was JAM 2.O, the participant is shown a picture and the person was to speak without a break while adhering to every rule of the event that include grammar checks, long pause prohibition, go word trigger and so on. This activity improves quick thinking, creativity and the ability to translate one's expression to words. This event was followed by Emotional Quadrant, for this activity the participant is shown a rotating wheel and a situation. The participant is expected to switch between emotions and change tones while instructed to do so. Some situations were funny and the participants were given with unexpected emotional palette to stick to This activity improves concentration, vocabulary and analytical thinking. The last event for the evening was this or that, the participants are shown a picture that contains the representations of arch rivals. The audience were expected to choose their favourite and justify the same while the judges interrogate their choice with potential questions The event was a success as the participants showed interest and showed involvement in the meet. ## **MEET REPORT:**

### **ATRIUM**

The first meet organised by the new core of Atrium was held on Saturday, 6th November, 2021. This was conducted online where about 40 students attended the meet. This meet had 3 events planned namely, Rant it out, JAM and Guess Who?. The first event to take place was Rant it out, the participant is shown a video and the person has to rant about it. This activity improves quick thinking, creativity and the ability to translate one's expression to words. This event was followed by JAM (Just A Minute), for this activity the participant is shown a meme or a picture and they have to speak about it for a minute without any grammatical errors, in addition to it they will be given a word, which they must insert after every word they speak. This activity improves concentration, vocabulary and grammar. The last event for the evening was Guess who, the participants are shown a part of a picture, and they are expected to answer who the celebrity/ character in the given picture is, the participants knowledge based on famous personalities is tested here.

The event was a success as the participants showed interest and showed involvement in the meet. The event ended with a feedback session where the participants expressed their thoughts regarding the meet and their expectations from Atrium.

## TOP ENTRIES:

### A CRY THROUGH TIES

-Poorna Padma M, BT: B, Year II.

Traits of my rugged soul traipsing through dense murkiness

Eeyorish thoughts wilt, mephitic odor seeps out my veins

Sceptic eyes shadow my muteness, my persona-

With solitude skirting me, my continual Fidos Aches.

Hedged in by fathomless guilt

Perturbed unremittingly by someone who I am not

Inching ploddingly into Devil's snare, while

Blurry polaroids of damp memories sway by-

"Why does my mewl fall aphonic?" my relentless call.

It was slow, the process:

Creeped in by degrees, like a hunter its prey

Engulfing the narcissist in me, splintered it.

Who I was, I remember not,

Who I've become, not my punch-

My emotions weigh double, insecurities burning through

Chiffon knots tie me down, looking far above at

The slim ray of hope my ethereal hands try clutching, but-

Social stigma has shunned me and

My frail, unfurled hands brushed aside

Depression penning a permanent dent-

Am I not of the same species?

Why am I disregarded?

Why do I stand tainted, marked by the society?

Purblind is the public-

My pleading cries now an aphonic call;

Acceptance is all I seek-

It seems imposingly near, yet paradoxically the most distant

## A LOST TRAIL (a poem on mental health)

She was a lost trout  
In the cascade, hushing millions of emotions out.  
Finning through the babbles of water  
Inept with numbness over,  
She aced the art well.  
Fouled with unshed shriek  
Dabbing the pillows wet.  
Under the moonlight as a solace  
Or whispering the stories that clench her up  
To the stars captivated in the window frame  
She aced the art well.  
All I ask is how long?  
How long the monotonous smile of "all fine"  
Play in the scraped cassette line?  
How long will there be a substitute to smile?  
Each time I get lost  
While trailing in the forest of frost.  
Struggling to breathe in the canopy  
Thick with stunned emotions and cries heard not so far.  
A brush of self-care and a dollop of love is a fain  
While the heart still pricked with arches of pain.

## **EVENT REPORT:**

### **INTRODUCTORY MEET**

#### **Introduction to Atrium & Debating Union**

Serotonin, a writing competition, was conducted by The Editorial Board of Atrium REC over the period of 10 days from the 7th October 2021. The theme of the competition was revealed via the official instagram of Atrium REC. This event was conducted for the students of 2nd year to raise awareness on mental health and to get various inputs from our writers on the same.

There were more than 15 entries for the competition. Entries included different perspectives of mental health. While many focused on self-help as their core concepts some had a unique take on the theme. This event resulted in not only raising awareness on the issues surrounding mental health but also helped bring out various opinions surrounding the same.

Keerthana H along with her editors judged the entries and came up with the top entries who were later appreciated. The winners were Poorna Padma, Aishwarya Arul and Madhumitha P respectively. The competition was a huge success and each participant brought out their best work.

## Skill and Personality Development Program

The skill and personality development program is a special program being conducted for the students of year one to improve the individual's soft skills and develop a good personality for their future. First, a profiling test was conducted via google forms to select students for this program. The students were judged on their grammar, vocabulary and skill in this profiling test. Twenty-One students were shortlisted based on the profiling test results and were added to the program.

## Orientation Program

The orientation to Skill and Personality Development Program was held on the 10<sup>th</sup> of May, 2022 between 3 pm to 5 pm at the heritage hall, academic block for the first-year students. The orientation was conducted by Mrs. Alamelu with the assistance of a few student volunteers from the second year.

The orientation started off with Mrs. Alamelu addressing the students and congratulating them for being accepted into the program. Then the students were briefed on the reason behind this program and what can they expect out of it. Various examples and insights were presented to make the students understand why skill and personality development plays a vital role in everyone's life and how the students can benefit from this. The students were informed of how the program is going to be conducted and what are the types of activities that the students will be engaging in as a part of this program.\*

After the briefing, students were encouraged to take up an online Myers-Briggs personality test. After the test, Mrs. Alamelu talked about the 16 different personalities and what are the strengths and weaknesses associated with each personality. The importance of understanding the individuals' personalities and how one can work on their strengths and weaknesses were discussed to make the students understand how they can improve themselves.

Lastly before concluding an ice-breaker activity was conducted with the help of the student volunteers to break the tension amongst students and to get them to interact with each other. The students enjoyed the activity and by the end, they were comfortable with their peers who were attending the program with them. The queries of the students were clarified and the orientation ended on a good note. The session was a success due to the interaction with students and their understanding of the value of the program and their excitement towards the future sessions of the program.

### EVENT REPORT- Japanese Language Training

Japanese language classes were taken for all the first year students from 27.07.2022 and 90 students joined this training and this session is a hybrid of online and offline, Idli & Sushi follow a unique methodology to deliver lessons that accelerate because it focuses on the students listening, reading writing and speaking skills. With a constant focus on the listening, reading and writing the packets of learning are absorbed at an increased pace and retention is much higher than other methods

A study on the Japanese can open the student's perspective on the values that other Asian nations share with Japan including religious belief, ethics and aesthetics. From a purely pragmatic perspective Japanese language proficiency looks good on any resume. Acquiring Japanese language proficiency also shows to potential employers that you have qualities of organization, self-discipline, and determination that would be advantageous to any company.

Some of the benefits include improved concentration and cognitive skills, more flexible and creative thinking, and better planning and organizational skills. It has even been shown that learning a second language can help slow mental decline as we age. Japan opened its doors for foreign skilled workers; engineering graduates in the country are queuing up to learn the Japanese language. Japanese companies' require graduates skilled in latest technologies like Artificial Intelligence, Machine Learning and Robotics as well as traditional technologies so this course will enable them to getting placed in Japanese companies.
